We design and manufacture tailor made turn key material handling machinery for ports, shipyards and vessels.

**BULK HANDLING CAPACITY
500 - 1000 TPH**

Rubber Tyred Mobile Ship Loader Continuous Bulk Loading

Level 7-1 Menara Rajawali Jl. DR Anak Agung Gde Agung, Lot#5.1
Mega Kuningan, Jakarta Selatan. Indonesia. 12950 Ph: (021) 2960 1505

Standard Features

- Rubber tyred travel system, with active steering drives
- Hydraulic jacking cylinders for stable operation
- Operators control cabin for all loader controls
- Electrical conveyor drives (VFD)
- Truck unloading apron feeder with dust filter
- Enclosed conveyor line through the loading boom
- Telescopic loading chute, dustless loading unit
- C5M Corrosion Resistant Paint
- Electro Hydraulic Power Pack
- Shore supply power socket
- IP56 Electrical Panels
- Safety equipment, audio-visual warning devices

Optional Features

- Wireless remote control
- Diesel generator set
- Jet pulse bag filter on boom tip
- Telescopic cascade cone type loading chute
- All hydraulic drives
- Stainless steel panels, accessories
- Special corrosion protection
- Cable reel for shore supply
- Air conditioned operators cabin
- Double truck unloading apron feeder

Building Up Your Machinery

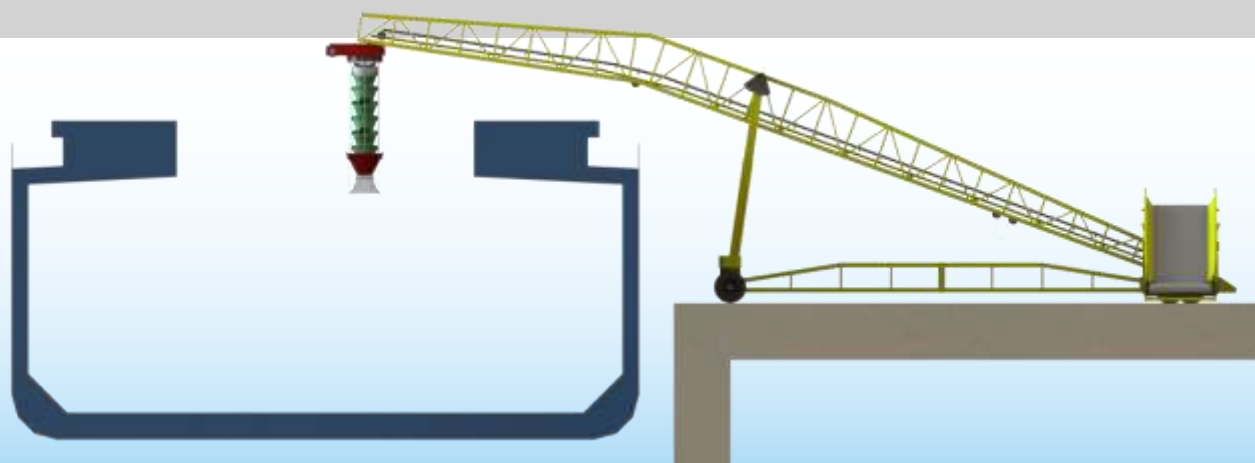

A comprehensive range of options and features are available for mobile ship loaders.

Selecting the proper options and unit for your loading operation will result in reliable, easy-to-operate and robust machinery. RUBBEX engineers are always at your service for selecting the suitable ship loader for your operations.

”Industry specific bulk loading machinery”

Full Function Mobile Ship loaders offer a cost effective and fast track solution with complete flexibility. By combining the Truck Unloading Apron Feeder Unit and comprehensive range of options for travel system, drive options and trimming equipment the Rubbex Mobile Ship Loaders offer reliable and robust machinery as a cost effective solution. Since no special civil works are required the Mobile Ship loader can be operated on any suitable existing quay area.

Mobile Ship loader with independent multi-entry Truck Unloading Apron Feeders Units can load cereal to Handy size ships at rates up to 1,000 t.p.h.

Ship Loader Size	Vessel Free Board (m)	Vessel Beam (m)	Outreach (m)	Length (m)
------------------	-----------------------	-----------------	--------------	------------

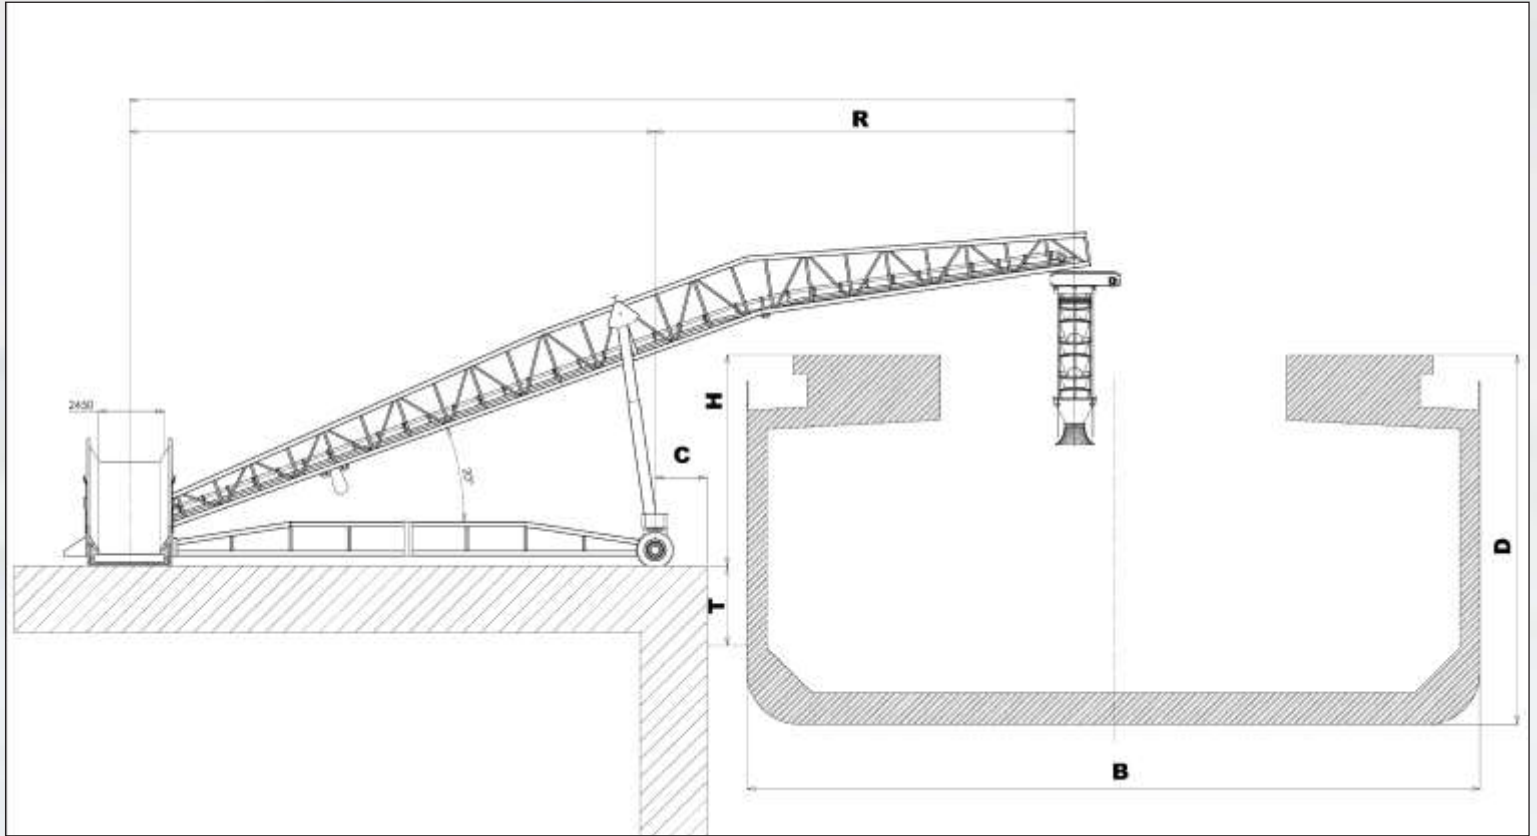

The dimensions are based on a ship loader operating at an angle of 20-25 degrees.

Increased working angles can be obtained for some materials with special belt configurations.

Please contact Rubbex Conveyors for tai-ored solutions.

WHY USE MOBILE CONVEYOR SYSTEMS?

- ❖ Ideal for Rapid Deployment for river and inland waterway projects
- ❖ Enables quick revenue stream for material being exported in first year of operation
- ❖ Can be used in rental fleets for short term contracts and moved from site to site. (Contract Loading/Stacking)
- ❖ Limited civils infrastructure required for jetties.
- ❖ Limited Planning Requirements.
- ❖ Resales Value of the Equipment.
- ❖ Dual Functionality of the Equipment. i.e., can be used for stacking also.
